

The collaboration platform that facilitates cross-campus research and drives innovation.

## Universal presence

**6,000+**  
universities globally

**12 million**  
registered university  
users globally

**64%**  
growth in university  
users in the last 3 years

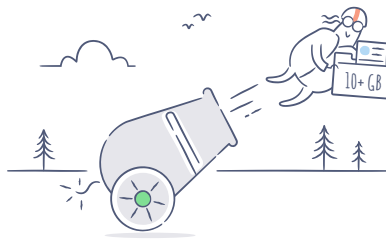

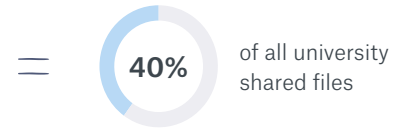

**46 million**  
connections among  
university users

**94,000+**  
shared folder invites  
every week

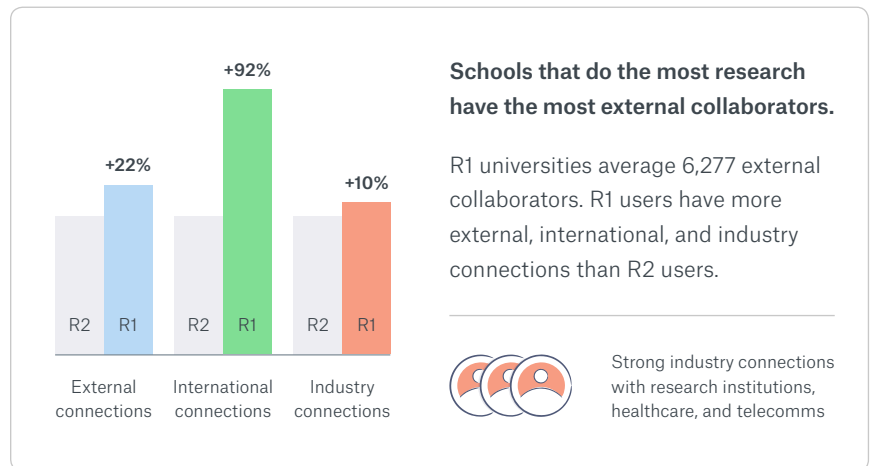

## Research-driven collaboration

**3.3 billion files** shared among university users in different cities and with different email domains

Universities are twice as likely to share 10+ GB files than other organizations

Commonly edited file types include:

## Centralize data at your university with a Dropbox Education account

**Universities with a centralized Dropbox team have:**

- ✓ More internal connections
- ✓ More international connections
- ✓ 2x external sharing activities

**Stronger security:**

- IT visibility, control, and management features
- Powerful integrations for data protection, identity management, and more
- US data residency and Europe-based data hosting available
- Supports compliance standards, including FERPA + HIPAA
